

FIG. 1

FIG. 2

FIG. 3 is a schematic diagram of a system 100, in accordance with an embodiment of the present invention. The system 100 includes a first module M1, a second module M2, and a third module M3. The first module M1 is connected to the second module M2, which is connected to the third module M3. The system 100 is configured to perform a specific function, such as data processing or communication.
